

TCR² Therapeutics to Present at the UBS Global Healthcare Conference and the Jefferies 2018 Global Healthcare Conference

Cambridge, MA, May 14, 2018 – TCR² Therapeutics Inc., an immuno-oncology company pioneering a novel class of T cell receptor (TCR)-based cellular therapies for solid tumors and blood cancers, announced today that its Chief Executive Officer, Garry E. Menzel, PhD, will present a corporate overview at the following upcoming investment conferences:

- UBS Global Healthcare Conference on Tuesday, May 22, 2018 at 11:30AM ET; and
- Jefferies 2018 Global Healthcare Conference on Thursday, June 7, 2018 at 3:00PM ET.

Both conferences will be held at the Grand Hyatt New York in New York, NY.

About TCR² Therapeutics

TCR² Therapeutics is an immuno-oncology company that has pioneered a novel class of T cell therapies for solid tumors and blood cancers that utilize the full signaling power of complete T cell receptors (TCR) without the need for HLA-matching. TCR²'s proprietary multi-format TRuC™ platform reprograms the natural TCR complex to elicit rapid killing of cancer cells with long persistence and low cytokine release. The company has demonstrated superior activity against several tumor targets in preclinical models compared to CAR T cells and will advance its lead solid tumor program TC-210 targeting mesothelin into the clinic in 2018. TCR² was founded in 2015 by renowned German immunologist Dr. Patrick Baeuerle and now led by a world-class team of immunotherapy experts and entrepreneurs in the heart of Kendall Square in Cambridge, MA.
