

TCR² Therapeutics to Present at the 38th Annual J.P. Morgan Healthcare Conference

January 7, 2020

CAMBRIDGE, Mass., Jan. 07, 2020 (GLOBE NEWSWIRE) -- TCR² Therapeutics Inc. (Nasdaq: TCRR), a clinical-stage immunotherapy company developing the next generation of novel T cell therapies for patients suffering from cancer, today announced that Garry Menzel, Ph.D., President and Chief Executive Officer of TCR² Therapeutics, will present a company overview at the 38th Annual J.P. Morgan Healthcare Conference on January 16, 2020 at 11:00am P.T. in San Francisco, CA.

A live webcast of the presentation will be available on the Investors page of the Company's website at www.investors.tcr2.com. An archived replay will be available for at least 30 days following the presentation.

About TCR² Therapeutics

TCR² Therapeutics Inc. is a clinical-stage immunotherapy company developing the next generation of novel T cell therapies for patients suffering from cancer. TCR²'s proprietary T cell receptor (TCR) Fusion Construct T cells (TRuC[®]-T cells) specifically recognize and kill cancer cells by harnessing signaling from the entire TCR, independent of human leukocyte antigens (HLA). In preclinical studies, TRuC-T cells have demonstrated superior anti-tumor activity compared to chimeric antigen receptor T cells (CAR-T cells), while exhibiting lower levels of cytokine release. The Company's lead TRuC-T cell product candidate, TC-210, is currently being studied in a Phase 1/2 clinical trial to treat patients with mesothelin-positive non-small cell lung cancer (NSCLC), ovarian cancer, malignant pleural/peritoneal mesothelioma, and cholangiocarcinoma. For more information about TCR², please visit www.tcr2.com.
