

TCR² Therapeutics to Participate in Two Upcoming Conferences in September

September 8, 2020

CAMBRIDGE, Mass., Sept. 08, 2020 (GLOBE NEWSWIRE) -- TCR² Therapeutics Inc. (Nasdaq: TCRR), a clinical-stage immunotherapy company with a pipeline of novel T cell therapies for patients suffering from cancer, today announced that Ian Somaiya, Chief Financial Officer of TCR² Therapeutics, will present an update on Company progress at two upcoming conferences in September using a virtual platform.

- H.C. Wainwright 22nd Annual Global Investment Conference on September 14, 2020 at 12:30pm ET
- Cantor Global Healthcare Conference on September 17, 2020 at 9:20am ET

A live webcast of each presentation will be available on the Investors page of the Company's website at www.investors.tcr2.com. An archived replay will be available for at least 30 days following the presentation.

About TCR² Therapeutics

TCR² Therapeutics Inc. is a clinical-stage immunotherapy company developing a pipeline of novel T cell therapies for patients suffering from solid tumors or hematological malignancies. TCR²'s proprietary T cell receptor (TCR) Fusion Construct T cells (TRuC[®]-T cells) specifically recognize and kill cancer cells by harnessing signaling from the entire TCR, independent of human leukocyte antigens (HLA). In preclinical studies, TRuC-T cells have demonstrated superior anti-tumor activity compared to chimeric antigen receptor T cells (CAR-T cells), while secreting lower levels of cytokine release. The Company's lead TRuC-T cell product candidate targeting solid tumors, TC-210, is currently being studied in a Phase 1/2 clinical trial to treat patients with mesothelin-positive non-small cell lung cancer (NSCLC), ovarian cancer, malignant pleural/peritoneal mesothelioma, and cholangiocarcinoma. The Company's lead TRuC-T cell product candidate targeting hematological malignancies, TC-110, is currently being studied in a Phase 1/2 clinical trial to treat patients with CD19-positive adult acute lymphoblastic leukemia (aALL) and with aggressive or indolent non-Hodgkin lymphoma (NHL). For more information about TCR², please visit www.tcr2.com.
